

TECHNICAL DATA SHEET

PPRC Pipe PN20 – 32mm (1 Inch) • Green Series

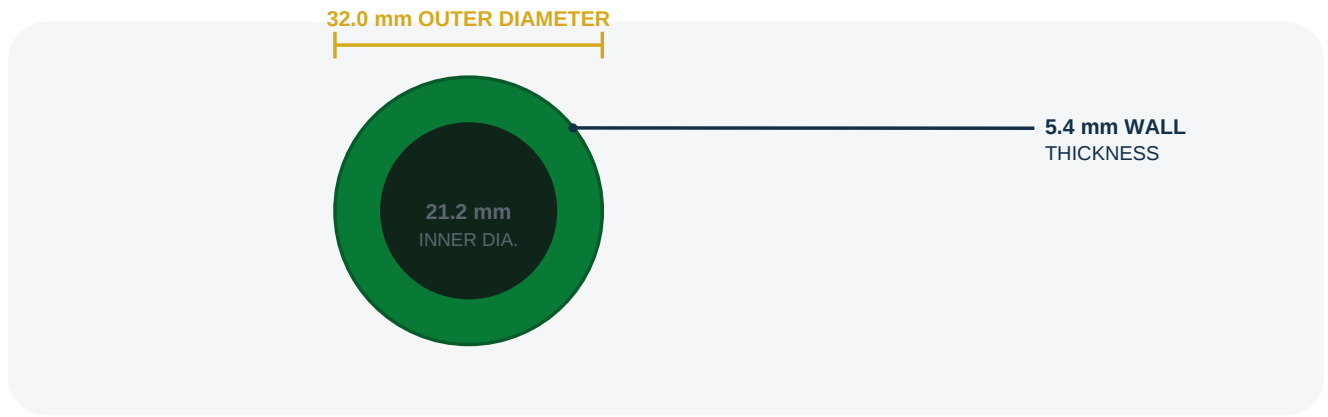

SKU UTCS-PPRC-32-PN20	BRAND PPI	PRODUCT PPRC Pipe PN20
--------------------------	--------------	---------------------------

TECHNICAL SPECIFICATIONS

Outer Diameter	32.0 mm
Wall Thickness	5.4 mm
Inner Diameter	Approx. 21.2 mm
Max. Working Temperature	Up to 95°C*
Nominal Pressure	PN20
Pressure Rating	20 Bar (at applicable reference conditions)
Material	PP-R / Polypropylene Random Copolymer
Application	Hot & Cold Water Supply
Standard	PPI 8303/8304 Approved

PIPE DIMENSION DIAGRAM

PRODUCT ADVANTAGES

Leak Resistant Reliable fusion joints	Hot Water Ready Suitable for hot & cold supply	Corrosion Free No rust or scaling	Long Service Life Durable PP-R material
---	--	---	---

Important Note: PN20 is a nominal pressure classification. Actual allowable operating pressure may vary depending on temperature, service conditions, system design and applicable installation requirements.
